**The message of  
Minister of Education  
“Read by the name of Allah”**

We express our gratitude to Almighty Allah who bestowed upon us life and the ability to read and write and we send endless salutation to Hazrat Muhammad (PBUP) whose first divine message from Almighty Allah is “Read”!

As it is obvious, the year of 1397 was named as “Education Year”. Therefore, Afghanistan education system will witness many fundamental quality changes in its different spheres. Teachers, students, curriculum/textbooks, schools, administrations and Parents’ Councils are the six basic elements of Afghanistan education which play an important role in expanding and developing of education of a country. At such a fateful moment, the leadership and the entire family of Afghanistan Education is committed to create fundamental changes in the development and expansion of the current education system in Afghanistan.

Thus, reforming and developing of the educational curriculum is one of the key priorities of Ministry of Education (MoE). In this regard, improvement in quality, content and the process of distributing of textbooks to schools, Madrasas, and all government and private educational centers is one of the topmost priorities of MoE. We believe that without having quality curriculum and textbooks, we will not be able to achieve the sustainable development goals with regard to education in our country.

To achieve the mentioned goals and an efficient education system, we kindly request our dedicated teachers and committed school administrators who are the educators of the future generation across the country to make endless efforts to support the active learning process using the textbooks and do their best to nurture the future generation to become informed and educated citizens who are critical thinkers and have the religious and national values. Teachers should begin their lessons every day with a sense of accountability and renewed commitment in order for their students to grow into civil, responsible and effective citizens, and serve as the architects of Afghanistan’s future development.

Furthermore, I kindly request our motivated students who are the country’s future valuable assets that they should not neglect the opportunities provided to them and respectfully utilize the teaching and learning process using the scientific curiosity and benefit immensely from the knowledge of their teachers.

Last but not least, I highly appreciate the endless efforts of educational experts, educationists, and technical partners in curriculum development that actively worked day and night to develop this textbook. I wish them success from Almighty Allah in their noble efforts.

I wish we achieve a well-developed education system of high standard and an Afghanistan with free, informed and prosperous citizens.

**Dr. Mohammad Mirwais Balkhi**  
Minister of Education
